Core5 Pupil Activities

Short vowels

Latin prefixes

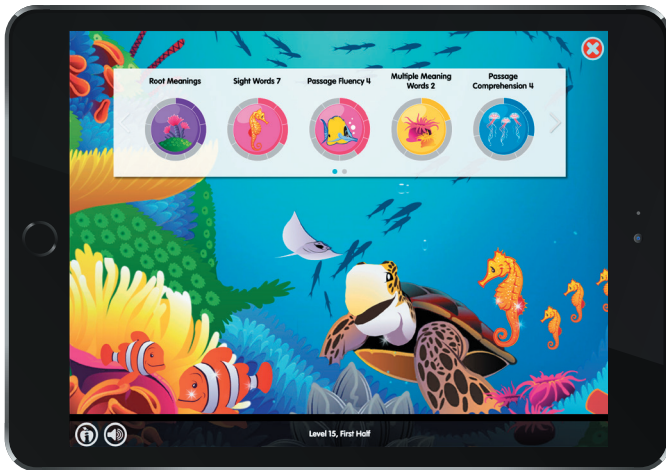

Advanced comprehension

After a short assessment, pupils are placed automatically at the appropriate starting point within the program. Working through assigned activities, Lexia adapts automatically according to need – ensuring skills are mastered before moving on. Where additional support is required, Lexia instantly recommends lesson plans and printable worksheets to further enable teacher-effectiveness. Activities range from pre-reading, phonics and early comprehension skills to advanced upper primary content, including deep text analysis and academic vocabulary skills.

Benefits for schools:

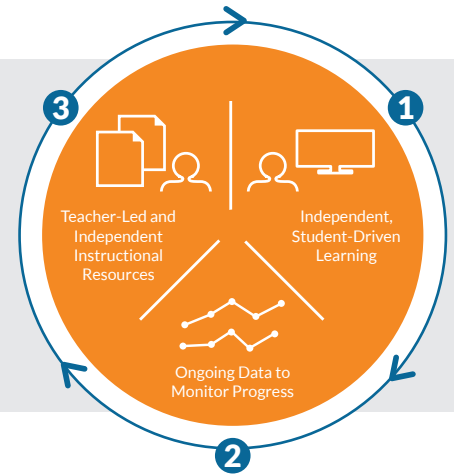

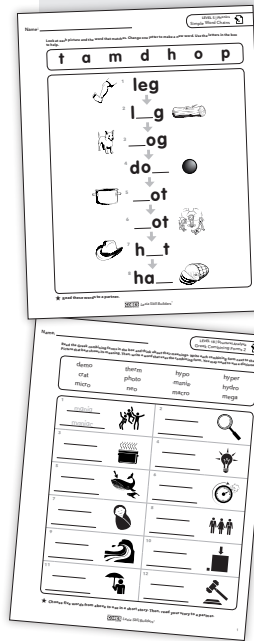

- ✓ Due to its technology-led approach, Lexia Core5® is a scalable solution which is far more cost-effective than traditional methods.
- ✓ Truly personalised, Lexia Core5® automatically adapts to individual need thus freeing up teachers' time.
- ✓ Lexia's embedded reporting system instantly delivers real-time data to inform planning and evidence progression.

Empowering Teachers

- ✓ Provides the tools required to prioritise, plan and deliver instruction where needed.
- ✓ Actionable Data: Reports help teachers monitor student usage and progress.
- ✓ Just-right Resources: Based on student performance, the program provides printable offline resources.

Lexia's personalised learning model

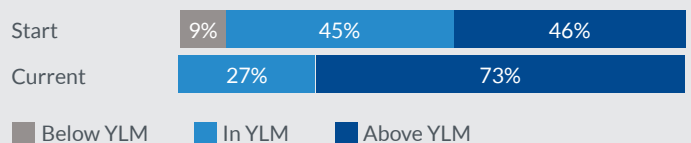

Benefits for students:

- ✓ Motivates and challenges students in an engaging, personalised on-line environment.
- ✓ The program's dashboard enables students to work independently and manage their goals.
- ✓ Core5® includes many motivational features, such as: animation, humour, gaming elements and rewards.

Real-time Data

A wide variety of reports can be produced to evidence progress and inform instructional decisions.
